Show Me, Tell Me

- Show me how you would check the parking brake for excessive wear.
 - *Apply the parking brake. When it is fully applied it should secure itself.*
- Show me how you would check that the direction indicators are working.
 - *Apply indicators or hazard warning lights and check all indicators.*
- Show me how you would check that the horn is working (off road only).
 - *Turn on ignition (if necessary). Operate horn.*
- Tell me how you make sure your head restraint is correctly adjusted so it provides the best protection in the event of a crash.
 - *The head restraint should be adjusted so the rigid part of the head restraint is at least as high as the eye or top of the ears, and as close to the back of the head as is comfortable. N.B. Some restraints might not be adjustable.*
- Tell me how you would know if there was a problem with your anti lock braking system.
 - *Warning light should illuminate if there is a fault with the anti lock braking system.*
- Show me how you would clean the windscreen using the windscreen washer and wiper.
 - *Operate control to wash and wipe windscreen (turn ignition on if necessary).*
- Show me how you would set the demister controls to clear all the windows effectively, this should include both front and rear screens.
 - *Set all relevant controls including; fan, temperature, air direction / source and heated screen to clear windscreen and windows. Engine does not have to be started for this demonstration.*
- Show me how you would switch on the rear fog light(s) and explain when you would use it/them. (No need to exit vehicle).
 - *Switch relevant lights on and identify warning light. Visibility would need to be below 100 metres.*
- Show me how you switch your headlight from dipped to main beam and explain how you would know the main beam is on whilst inside the car.
 - *Operate switch (with ignition or engine on if necessary), check with main beam warning light.*
